SECTION 2. The general assembly recognizes that without increased revenue with which to fund state government, it will be necessary to establish priorities among state services and programs, to reduce or eliminate some state services and programs and to revise the methods of allocating state resources. Therefore, it is the legislative intent that:

1) All state-shared taxes will be frozen as of June 30, 2002; and, thereafter, all revenue growth from such taxes will be deposited in the state general fund;

2) All grants and similar payments not directly required to provide state services will be funded with nonrecurring revenue in the 2001-2002 fiscal year and thereafter will no longer be funded by the state;

3) The priority among state services and programs must be established jointly by the legislative and executive branches of government;

4) All dedicated taxes and user fees will be reallocated to the state general fund to meet the need for state services and programs determined to be priorities;

5) All operations of the state will be examined to determine which services and programs can be abolished without adversely impacting services and programs which have been determined to be priorities for the state to provide;

6) The University of Tennessee Board of Trustees and the Tennessee Board of Regents should study their operations to determine how they can operate more efficiently and with more limited resources. Such boards shall also examine the impact on their respective institutions of the reductions made in this budget and the reality that the level of funding of the higher education formula may decline. Such boards shall report their conclusions to the Finance, Ways and Means Committees of the Senate and House of Representatives as soon as practicable, but no later than January 1, 2002.

SECTION 3. If any provision of this act or the application thereof to any person or circumstance is held invalid, such invalidity shall not affect other provisions or applications of the act which can be given effect without the invalid provision or application, and to that end the provisions of this act are declared to be severable.

REMARKS

Rep. Turner (Hamilton) requested that the following remarks be spread upon the Journal:

I cast a vote today for House Bill 2038. This bill was necessary to fund the important items to continue state operations. I object to the use of tobacco dollars to balance the general fund but there was no majority support for additional dollars to be used for education, health, safety, long term care. I believe new funds in addition to cuts are necessary to move Tennessee in a positive direction for all our citizens. The management of our state government cannot improve with no growth of dollars and no elasticity in our revenue streams. This is a very difficult and trying time for all of our citizens and Tennessee state government.
